Steve Cronebaugh, President
Kevin Hursey, Vice President

To Whom It May Concern:

Process and procedural changes are a common practice when revamping and reorganizing departments. We are working hard to make the Tuscarawas County Fair and all of its attractions the best that it can be! Upon thorough review, we have come to the conclusion that in order to keep the on-site camping safe, efficient, and accessible to active 4-H members, there needs to be a change in the policy and procedures for camping on the grounds.

Camper sizes are increasing while our camping space remains the same. Safety is our main concern. On the following page you will find an overview of the changes that will be effective immediately. Please be considerate of all active 4H members, current board members, FFA members, and Open Class exhibitors who have spent countless hours preparing. We value their time and commitment to the fair. Our goal is to keep everyone updated and provide an avenue of open communication as we implement the changes necessary to keep our fair running smoothly. Should you have any questions regarding the changes listed on the following page, they may be directed to Jacque Peters by calling (330)691-0813.

Thank you for your time,

Jacque Peters
Committee Chair
